Alaska 2028
A LAND & SEA ADVENTURE

There's nothing quite like the experience of Alaska. From the thundering glaciers and wildlife-filled fjords of its Inside Passage, to the towering mountains, expansive forests, and crystal-clear lakes of its rugged interior, Alaska is as captivating as it is vast.

Travel with your friends at **Brandon Company**, and you will have the opportunity to experience Alaska - by land and sea. Prior to boarding your ship, you'll embark on a two-night journey exploring Alaska's rugged interior up close, beginning in Fairbanks. Once a goldrush boomtown, Fairbanks stands as your "Gateway to the Arctic." From Fairbanks, you'll traverse across the expansive tundra to Denali National Park, a 6-million-acre wilderness that is home to grizzly bears, moose, wolves, caribou, and Dall sheep, otherwise known as Alaska's "Big Five."

Ketchikan's Historic Creek Street

Dominating the landscape is Denali - the highest peak in North America. Denali majestically ascends 20,310 feet and is one of the most awe-inspiring sights in Alaska. And as one journey ends another begins...

Trek through the heart of Alaska's wilderness aboard Holland America's McKinley Explorer train to Whittier and board the luxurious m/s Eurodam for a seven-night cruise through Alaska's revered Inside Passage. The network of waterways provide access to miles of pristine coastline, glaciers and vast populations of porpoises, whales, sea birds, seals, sea lions, otters and eagles. You'll experience it all from the vast deck space of the Eurodam, your own, private verandah, or on any of the optional shore excursions available on board.
